

CLASSIFICATION PARAMETERS OF PROGRAM AND COURSE OFFERS WITH LIMITED PLACES FROM SANTANDER OPEN ACADEMY

Thank you very much for using Santander Open Academy! If you're wondering how we order or classify the Scholarship Programs and Courses with Limited Places offers that are published on our Portal, you can check the criteria we use below.

Basically, we use three criteria, ordered from greatest to least relevance:

- (i) Weight. This takes into account factors such as where you are located (IP address), the status or relevance of the Program, Course with Limited Places in our view. In other words, we will give priority to those Programs, and Courses with Limited Places that will take place near you over those organized abroad, and we will also prioritize those Programs and Courses with Limited Places currently open above those whose enrollment period will start soon and others that have already finished.
- (ii) Number of scholarships or places offered in Limited Spaces Programs and Courses. In the event that two programs or two Courses with Limited Places have the same "weight", we will show higher up the Programs or Courses with Limited Spaces in which a greater number of scholarships or places are offered.
- (iii) Creation date. If the previous two criteria are equal, we will first show those Programs or Courses with Limited Places that have been created more recently.

We hope you find this information helpful.

Sincerely,

The Santander Open Academy Team
